

INOX BALTIC OÜ

Digitalization Roadmap support measure

Project Implementation Period: 11.06.2024–05.12.2024

Grant Amount: 8,900 EUR

Project Summary:

Support for creating a digitalization roadmap to increase the company's awareness of its current level of digitalization, automation, and basic cybersecurity.

Project Objective and Outcome:

To conduct an analysis of the company's digitalization and automation status, identify issues and bottlenecks, prioritize them, and develop potential solutions. This includes preparing a three-year action plan and a feasibility analysis.

Funding Source: Co-financed by the EU

The project is funded under the "Digital Nation" measure and was carried out in collaboration with DIGIWISE OÜ.

**Co-funded by
the European Union**
